This is to certify that heat number A93133 is in conformance with the required specifications.

Heat analysis obtained by test methods ASTM E415 and ASTM E1019.
*Minimum and maximum refer to the required customer specification.
This is to certify that the material is in conformance with the required specifications.
Radioactive emissions are at background levels.

APPROVED BY:

Supervisor, Chemistry Laboratory and Billet Inspection
This certificate shall not be reproduced except in full, without the written approval of Ivaco Rolling Mills LP, a Heico Company. This certificate is not covered by the NVLAP accreditation.

ISSUED BY QUALITY ASSURANCE:

Date: 22 Aug 2008

Specification Clerk

This certificate is not to be used by the client to claim product endorsement by NVLAP or any agency of the U.S.
